The Houston Agrithinks "San Anto-nio need not yet despair of getting a railroad down to Aranass Bay. She has talked a good long while we know, and done very little, so far. But she has not talked so long or so much as Gaireston did shout the Guif, Culcorade and Santa Fe, before anything was done."

Tranz have been a good many meet-ings in Texas for the purpose of organ-ting ioung Democratic clubs, but it is noticeable that the old time whest horses of the party take the lead and all the positions, just the same. The ma-chine helds its own with a grip that is more than vigorous.

"The Houston Age explains why san Antonio has more school children than any other fown in Texas. The people of isn Antonio at containing the same and people have more children." The fact is, that San Antonio simply has more people than any other city in the State, and that such an explanation as the above is noneases and unworthy the great mind that gave it utterance.

Tm Delias Estray Record and Farm-Journal compliments the Liniur in the following: "The Bay Astrono Louir gracefully reducts the characteristic features of the Southwest her people, soil and predouttions. Bepublicant po-tites, the Liniur is ever liberal and de-voted to the universal welfare of de-voted to the universal welfare of de-voted to the universal welfare of the State than to eliqueism or party inter-eats. Alsons every day is we is received to the effect that some American eitzen is confined in prison in Mexico and denied not only a trial, but communication with his friends. The El Pau Times gives the following as the latest: "We received a letter to-day with the signature of George Edwards, who says he is in just in Chibushus, Mexico, on a charge of shooting at a conductor of a freight train hast October. That he has been in juli ever almost an extended train hast October. This he has been in juli ever almost any of the trial. His condition, guilty or innocent, appeals to the sympathies of Americans. This is what Mr. Beecher said when

he andotsed Mr Cleveland's nomination.
"The Republican party needs a very strong rebuke. It had, a leason when Cleveland was elected governor, it was Cleveland was closed descent, it was rebase of the methods to head Cornell I think it was a lessum; I don't think it would do any harm to try it on a larger scale and give Cleveland the presidency. He has made a good governor and in will be very likely to make a good president. I don't go back on my Republicantism one lota, but I do want to see a change in the methods of, the party, and this everiating corruption that to constantly cropping up put out of the way. I think we are on the right track for doing it." But hast week he trock it all hands. And says that, "we sing to recent developments he could not support Mr. Develand."
